MEMORANDUM

FROM: Dennis Grim, CBO
Code Compliance Manager
Christopher Lestrangle, PE
Deputy Building Official

SUBJECT: Florida Board of Professional Engineers Rescinds
Condemnation of Aluminum Structures Design Manuals

DATE: June 21, 2006

In accordance with the Florida Board of Professional Engineers decision at their June 14, 2006 meeting, St. Lucie County has rescinded the ban on the use of aluminum structure design manuals effective immediately. The use of the manuals for permitting aluminum structures will be accepted to allow the Board to create rules to specifically address the responsibility of Professional Engineers in the design of aluminum structures.

To reduce review times and fees charged for multiple plan reviews, we will continue to review permit application submittals for completeness prior to being accepted in the Permitting Department. Applications that are incomplete or missing information will not be allowed to submit for a building permit.

If you have any additional question, please do not hesitate to contact the Code Compliance Division at (772) 462-1553.
